Complaints Made Regarding Revenue Matters in the Philippines.

CONGRESS IS APPEALED TO.

Military Government Said to be Destroying American Trade-Basis for Complaints.

[Early Dispatches.] New York, April 30 .- A special to the World from Washington says:

There will be laid before Congress tomorrow a memorial from the American chamber of commerce at Manila protesting vigorously against the excessive taxation exacted by the United States miltary government.

H. R. Lewis, former president of the chamber of commerce, was delegated by that body to place the grievances of the merchants before Congress. He has arrived at Portland, Oregon, and will proceed to Washington immediate-

The memorial is in part as follows: "We unhesitatingly declare that American trade in the Philippines is almost impossible under the present re-gime, and that it will be utterly des-troved unless immediate relief is had. Many of the laws found too harsh for practical application and winked at by the Spanish attorneys, are being en-forced under American rule with all the rigor of military exaction, thus stifling the incentive to business.

"The internal revenue department is but a pawn-shop where men put up their salaries and business profits for the privilege of laboring and using their capital—an importing house of the first class, paying upward of \$100 per month

within the jurisdiction, and rice, the staple food product of the islands, is almost unobtainable by the people, we are sustaining a tax on flour purchas-able in the United States at less than \$3 gold and which must be sold at \$12 Mexican in Manila."

The memorial declares that formerly goods were admitted to the Philippines from Spain practically free and later a tax for harbor construction was im-posed and enormous increases were made in specific duties. Regret is expressed that the Ameri-

cans retain "not only the excessive specific duties, but also the tax for harbor construction (which, by the way, is not being constructed), the 8 per cent on an arbitrary and excessive valuaand many other articles, and sub-taxes of varying degree, until the cost of imported goods is in many instances en-tirely beyond the means of any but the most prosperous people."

AMOUNT OF AMERICAN CLAIM. Missionaries at Hartpoot Lost \$87,-

New York, April 30.—A special to the Herald from Washington says:

Though it is the purpose of the admiration to continue process. Though it is the purpose of the adsublime porte to pay the misionary claims pending against it, those acquainted with the character of the claims believe they greatly overestimate the value of the property des troyed.

The total loss which the missionaries

at Harpoot say they sustained as a result of the outbreak at that point in 1895 amounted to \$87,985, of which \$43,-700 represented the value of the build-ings damaged; \$32.677 the personal losses of the missionaries and \$11,608 the loss

on stock and apparatus.

The Rev. C. H. Wheeler apparently suffered the greatest loss. He estimates that \$9.010 will be required properly to reimburse him. Among his effects destroyed were notes and bonds which he values at \$2,290, and the accrued interest is put at \$1,500 more. Clothing and values at \$2,200, and the accrued interest is put at \$1,500 more. Clothing and materials which he possessed and which were damaged, he values at \$1,342; furniture at \$1,000; bedding at \$220; provision, fuel and medicine, \$750, and boots and shoes, \$35.

The Rev. C. F. Gates apparently

wore more expensive shoes than Mr. Wheeler, for he asserts that those he lost were worth \$72.

Dr. Gates lost clothing valued at \$879; food valued at \$132; saddlery \$146, horse, donkey and cows \$188, and bedding \$379. Miss E. C. Wheeler values the clothing she lost at \$1,138, bedding at \$21; and photographs and pictures at \$300 Her boots and shoes were worth \$76. It is emphatically asserted at the embassy, however, that there is no intention on the part of Germany to forcibly with the casualties suffered by the British troops in South Africa, those sustained by the American forces in the Philippines seem very small. A statement just compiled by the war department shows that from July 1, 1898, when American troops reached Manila, until April 27, 1900, these deaths German government recognized the Monroe doctrine and it does not propose, according to the embassy official, to violate it.
